

WATER

PAGE 15'S NINTH ANNUAL HIGH SCHOOL WRITING CONTEST

Water is an essential element, facilitating the survival of nearly all life on Earth. Here in Florida, we are surrounded by water, between the beaches at our coasts or the rain that falls nearly every day of summer. The life-giving qualities of water are also invoked in certain rituals and traditions; water can allow you to take your mundane morning shower or undergo a spiritual renewal.

Consider the element of water and all its manifestations. We want your fiction, nonfiction, poetry, or essays (1,500 words max). Rough drafts welcome. Fifteen finalists will be published in a printed anthology book alongside original artwork and celebrate with friends, family, and fellow authors at a book release party and signing.

For more information and to submit your writing, visit Page15.org/contest

SUBMISSION DEADLINE: FEBRUARY 26, 2021
